Oxalic acid.
Phosphorus, amorphous, red phosphorus.
Potassium bromide; potassium iodide; potassium iodate; potassium oxalate (neutral and acid); potassium perchlorate; caustic potash, potassium hydrate (in containers of less than 40 kilog.;) [See also under Potassium salts on page 386.]
Pyridine.
Sodium bromide; sodium iodide; sodium oxalate; caustic soda, sodium hydrate (in containers of less than 40 kilog).
Strontium bromide; strontium iodate.
Zinc chloride.

[SCHEDULE C relates to goods which may be sold practically without restriction. The following articles from Schedule C have been prohibited to be exported, and are included specifically in the list on pages 383 to 387, *viz.*, absolute alcohol, citric acid and its salts, tartaric acid and its salts, collodion, chemically pure hydrochloric acid, chemically pure sulphuric acid, lactose (sugar of milk), formaldehyde solution and other formaldehyde preparations, balsam of Peru, wool-fat (all kinds), vaseline and vaseline oil.]

SWEDEN.

LIST OF ARTICLES THE EXPORT OF WHICH IS PROHIBITED.

February 17, 1916.

NOTES.

(1) A Swedish Royal Decree of the 9th January, 1915, definitively prohibited the *transit* through Sweden of arms, ammunition, and other war material, as specified in the Decree.

The Swedish Government issued on the 4th May, 1915, a Decree which had the effect of extending the operation of the Swedish prohibitions of export to *all* goods in transit between the United Kingdom and Russia, which are on the Swedish export prohibition list. Since the 16th August, 1915, this prohibition of transit has been applied also to goods sent through Sweden by parcel post.

(2) *As from the 22nd April, 1915, the export is prohibited of goods with regard to which no special prohibition of export has been enforced, but which are manufactured wholly or in part from materials of which the exportation is prohibited, if it appears from the quantity of the material employed or from some other circumstance that the working-up to which the material has been subjected is merely intended to facilitate the exportation of the prohibited materials of which the goods consist.*

(3) Goods of which the exportation is prohibited may be shipped between Swedish ports, subject to the observance of certain regulations established by a Proclamation of the 16th February, 1915 (as amended by Proclamations of the 14th May, 14th June, and 9th July).

(4) The numbers and letters quoted below relate to the headings of the "Statistical Index of Goods" under which the prohibited articles fall.

The *numbers* are the same as those of the Swedish Customs Tariff*; the *letters* indicate the sub-divisions of the numbers, and are found only in the "Statistical Index"—which is considerably more detailed in classification than the Customs Tariff.

ex 1258	Acetylsalicylic acid. [see under Druggists' wares.]
	Acids:—See under the respective headings, *viz.*,—Acetylsalicylic, Carbolic, Citric, Fatty, Hydrobromic and hydroiodic, Salicylic, Sulphuric, Tannic, Tartaric, Vanadic.
ex 1258	Adrenaline and salts and preparations thereof. [See under Druggists' wares.]
ex 1250	Agar-agar.
1253 A	Albumen. (See also under Eggs.)

* The most convenient form in which the Swedish Customs Tariff in its present form can be consulted is the translation published in 1912 by the International Customs Tariff Bureau at Brussels (No. 93, Second Edition, March 1912).

114 A and B	Almonds, whether shelled or not.
ex 1258	Aloes. [See under Druggists' wares.]
ex 953*	Aluminium and certain wares thereof (see under Copper).
ex 1258	Alypin. [See under Druggists' wares.]
ex 1145 H-I; 1152; 1150 C	Ammonium bromide; ammonium iodide; ammonium nitrate; ammonium sulphate;
1196	Aniline and alizarine dyes, and other tar colours, not specially mentioned in the Statistical Index. (See also Indigo Synthetic.)
1197	Aniline (aniline oil), naphthol, naphthylamine and paranitraniline and salts thereof.
73 B and C	Animal products, *viz.*:—blood, and parts of animals, not specially mentioned (but not including intestines), even if salted, and animal wastes not specially mentioned; feeding stuffs made from animal wastes, even if mixed with vegetable substances. [For edible animal products see under Meat, etc.]
	Animals, living (see under Cattle, Horses, Pigs).
ex 1258	Antifebrine. [See under Druggists' wares.]
ex 1176, E	Anthracene oil.
ex 953*	Antimony, unmanufactured or in the rough, also scrap.
ex 1258	Antipyrine (phenyldimethylic pyrazolone). [See under Druggists' wares.]
	Arachides and arachides cake (see under Oilcake); arachides oil (see under Oils, vegetable, fatty).
ex 1258	Arecoline and its salts. [See under Druggists' wares.]
	Arms (see under War Materials and Weapons).
	Articles of sheet iron (see Iron sheets).
12	Asbestos, unworked; manufactures of asbestos, not specially mentioned, with or without admixture of other substances, and even if in combination with other materials. (See also under Compositions and Engine packing.)
ex 1258	Atropine and its salts. [See under Druggists' wares.]
ex 56 B	Bacon, pork, etc. (*flask*), American, salted.
	Balata (see under Rubber).
	Balsam of Peru (see under Resins).
	Bandaging articles, with the exception of cellulose wadding, bandage gauze, charpie, and preparations thereof.
ex 764½	Barbed wire.
ex 232 A, ex 232 C†	Bark—spruce bark; other bark, not specially mentioned, if used for tanning. (See also Chinchona bark and Sagrada bark.)
	Barley, barley meal, etc. (see under Cereals).
1068	Battaries, galvanic.
ex 168 F, 168 E	Beans and peas, preserved (in hermetically closed or airtight receptacles). [Beans and peas, other—see under Cereals, unground.]
	Beetroot seeds (see under Seeds).
1176.A	Benzol (*bensololjor*).
	Binder yarn (*skördegarn*) and cords thereof (see under Vegetable textile materials, etc.).
ex 1265 A and C	Binoculars, telescopes, and field-glasses (*kikare*), and parts thereof.
	Biscuits (see under Bread).
ex 953, ex 1258§ and ex 1259	Bismuth and bismuth compounds (pharmaceutical, etc.).
	Blankets (woollen) (see Woollen blankets).
	Blood (see under Animal products).
ex 287	Bone, unwrought or sawn splintered, split and rasped.

* See Note † on page 391.

† 232 *B.* [*not prohibited*] relates to cork bark.

‡ Travellers are allowed to take with them on leaving the country, binoculars, telescopes, and field-glasses which they have brought into Sweden for their own use.

	Bone-fat (see under Fats, animal).
1230 A	Bone meal and horn meal.
ex 209-211; 213½	Boots and shoes (men's) of greased leather; sewn uppers for boots.
	Boots and shoes of rubber (see under Rubber).
1134 B	Borax, crude or purified.
84 A-F	Bran (of oats, wheat, maize, rice, rye, and other kinds).
	Brandy (see under Spilits).
	Brass, bronze, and other copper alloys (see under Copper).
148	Bread, etc:—small fancy bread, pastry, cakes, gingerbread, and other similar bakers' wares, not being preserves.
149	Bread, not specially mentioned (including dog-biscuits).
	Briquettes (see under Coal).
	Britannia metal (see under Copper).
1145 H, ex 1258* ex 1259	Bromine, potassium bromide, sodium bromide, ammonium bromide, and other inorganic bromides, also bromates; organic bromide compounds.
ex 1258	Bromural and preparations thereof. [See under Druggists' wares.]
ex 964	Bronze coins.†
1190-1191	Bronze powder and bronze tinsel (brocade bronze).
138—139	Butter, natural or butter, artificial (margarine).
ex 1258	Caffeine and salts, combinations and preparations thereof. [See under Druggists' wares.]
ex 51 D	Calves.
	Calves' stomachs (included under Animal products [73 B]).
ex 1216	Camphor, refined.
1121	Candles (stearine and other).
	Cannon, howitzers, mortars, etc., (see under War Materials).
ex 1176	Carbolic acid, cresol, metacresol, carbolineum and creosote oil.
ex 1073	Carbon electrodes.
ex 1172 A	Carbon sulphide.
ex 1114	Carnauba wax.
	Carts, carriages and vehicles, and parts thereof, *viz*:—
1098 F	Carriages and vehicles, without motors, for carrying goods.
1098 G. H	Carriages and vehicles, with motors, for carrying passengers or goods.
